Custom Structures | *express yourself*

Skyspan's team of **innovative thinkers** can turn your imagination into life. While our specialty is architectural umbrellas, we also pride ourselves on our ability to create custom tension structures. Tension structures are a combination of beautiful architectural design and incredible durability. Unlike conventional shade structures, tension membrane structures are **all-weather** and **significantly stronger**.

APPLICATIONS

- Car parking
- Amphitheater covers
- Walkway covers
- Athletic venues
- Restaurants
- Resorts

PAST PROJECTS

- The AMP, Carrollton, Georgia
- West Atlantic Plaza, Delray Beach, Florida
- Hyatt Grand Cypress, Orlando, Florida
- River of Earth, Hindman, Kentucky
- Hyatt Piñon Pointe, Sedona, Arizona
- Hard Rock Cafe, Los Angeles, California

West Atlantic Plaza, Delray Beach, Florida

West Atlantic Plaza, Delray Beach, Florida

Carrollton, Georgia | Custom community amphitheater.

Custom Printing | *parade your brand*

Customize your Skyspan umbrella and **parade your brand** with our **custom printing** option. While other umbrellas lose their marketing potential on windy or rainy days, your Skyspan umbrellas remain open. Partnership sponsors can purchase and customize your new umbrellas with their brand, which can then be installed on a patio or open market space.

PRINTING CAPABILITIES

- Single images
- Full images
- Multiple images
- Patterns
- Logos

Budget Breakdown | *plan for your site*

While every Skyspan project is different, each of our clients can expect certain **costs when planning** for their new umbrellas. We've broken down the average cost into three categories as outlined below.

PRODUCT

On average, 74% of your total Skyspan purchase price will go towards the cost of your Skyspan umbrella.

INSTALLATION

On average, 22% of your total Skyspan purchase price will go towards the cost of installation. Installation prices may vary due to our customer's needs and availability of materials.

FREIGHT

On average, 4% of your total Skyspan purchase price will go towards the cost of freight.

OTHER ITEMS TO CONSIDER

- Desired area of shade coverage
- Type and style of umbrella
- Size of area to be shaded
- Goal and needs for your covered space (heating, cooling, waterproofing, etc.)

Options | *customize and accessorize*

With over **50 fabric colors**, **21 frame finishes**, **custom printing**, and numerous **accessories**, we'll create an umbrella that is perfect for you. All colors are approximate, please ask your sales representative for actual color swatches before ordering.

FABRIC | FERRARI 502 COLLECTION

*Ferrari 502 Collection color design is currently transitioning to Ferrari 502 Satin. Limited availability on colors may apply as a result.

FABRIC | STAM 6002 TEXTURED COLLECTION

*Stam 6002 is available for any of our umbrella or cabana models at a small upcharge.

FABRIC | SUNBRELLA MARINE

*Sunbrella Marine Fabric is offered only for our Portable Retractable Umbrella.

FINISHES | SUPERDURABLE FRAME COLLECTION

Warranty

Superior Recreational Products (SRP) manufactures its Skyspan structures with top-quality materials in order to withstand inclement weather and marine environments. We design, engineer and test our products to withstand and resist high winds, allowing our customers to enjoy our products. Skyspan products are carefully inspected to prevent any type of manufacturing defects. Our goal is to manufacture architectural shade products that meet customers' expectations to withstand inclement weather allowing for full enjoyment.

The warranty does not cover cosmetic damage to surface areas, frame, or canopy due to alteration, vandalism, impact damage, misuse, fire, or floods.

This warranty is valid only for installations made by certified installers or in accordance with company installation instructions.

This warranty is the only express warranty given by the company. No person has authority to change or add to these obligations and liabilities. The company reserves the right to determine whether the fault is caused by faulty workmanship or material, or the part that is defective.

Umbrellas: Sunset, Horizon, Vista

Although all Skyspan umbrellas are designed to withstand high wind speeds and have been engineered/tested in wind speeds which exceed 70 mph, SRP does not recommend or warrant the deployment or use of any collapsible umbrella in wind conditions which exceed 45 mph unless where specifically designated and approved in writing by qualified SRP engineers. Horizon umbrellas outfitted with Skyspan's additional bracing supports will be warranted for wind conditions up to 60 mph and 3-second wind gusts. Skyspan's warranty will only cover umbrellas that have been properly secured (installed according to manufacturer's installation instructions with a level canopy and plum column) to an approved footer or other approved mounting system. SRP recommends that all retractable umbrellas be securely closed when not in use.

Cabanas

Skyspan Cabanas are designed to withstand high wind speeds and have been engineered/tested in wind speeds which exceed 90 mph. However, SRP does not recommend the use of any Cabana in wind conditions which exceed 75 MPH unless where specifically designated and approved in writing by qualified SRP engineers. Skyspan's warranty will only cover Cabanas that have been properly secured to an approved footer or other mounting system.

Permanent Structures: Hypar, Wavecrest, Panorama, Custom Structures

Skyspan fixed structures are warranted for sustained winds up to 76 mph (Hurricane Force 1) and for gusts of up to 3 seconds duration and up to 90 mph. Removal of the shade fabric is required if damaging winds are called for. Damage due to snow and/or ice accumulation is not covered by this warranty. Canopies should be removed during the "off season". SRP will only warranty products which are properly secured to a footer according to engineering drawings or approved anchoring system.

SRP reserves the right, in cases where certain fabric colors have been discontinued, to offer the customer a choice of available colors to replace the warranted fabric of the discontinued color. The company does not warranty that any particular color will be available for any period of time and reserves the right to discontinue any color for any reason it may determine, without recourse by the owner of the discontinued fabric color.

Further, SRP will not cover any damage to any umbrella frame, canopy, shade or base device which occurs as a result of contact with the ground or any other foreign object including damage which occurs as a result of sudden and severe weather events or other extreme acts of nature.

Please contact SRP directly if requesting products and mounting foundations to be warranted in sustained wind conditions which exceed the stated warranties per each model.

For full warranty, please contact your sales representative.
